

Invitation letter - ISMF2016

Sept. 3rd, 2016

Dear colleagues/friends,

On behalf of the organization committee, it is our pleasure to invite you to participate in the **8th International Symposium on Multiphase Flow, Heat & Mass Transfer and Energy Conversion (ISMF 2016)** during December 16-19, 2016 in Chengdu, China.

ISMF, originally known as the Sino-American Seminar on Two-Phase Flow and Heat Transfer, was initiated in 1984 by Academician X.J. Chen from Xi'an Jiaotong University and Professor T. Nejat Veziroglu from University of Miami. Since then it has seven successful conferences in 1984, 1989, 1994, 1999, 2005, 2009 and 2012 in Xi'an, China.

ISMF2016 is aimed to be a multidisciplinary forum for scientists, technologists, engineers, students and researchers from all over the world in the fields of energy, power, chemical, nuclear and petroleum engineering and industry who are dedicated to the study on multiphase flow, heat mass transfer and energy conversion.

The conference covers 13 technical topics but not limited to as follows:

- Bubble and Droplet
- Particle Science and Technology
- Reactive Multiphase Flow
- Micro and Nano Scale Multiphase Flow
- Modeling and Numerical Methods
- Experimental Techniques and Instrumentation
- Applications of Multiphase Flow
- Alternative Energy and Renewable Energy
- Hydrogen Production, Storage and Utilization
- Clean Coal Technology
- Materials for Energy Conversion
- Fuel Cell
- Heat and Mass Transfer

This year's conference is the first to be held in Chengdu City, Sichuan Province, China. The city is well-known for its local dish, hot pot and other specialties. It is also home to the

8th INTERNATIONAL SYMPOSIUM ON

Multiphase Flow, Heat Mass Transfer and Energy Conversion (ISMF2016)

Chengdu, China, December 16-19, 2016

world-famous Research Base of Giant Panda Breeding, a conservation center where visitors can view the endangered giant pandas in a natural habitat.

It is our pleasure to invite you and your research colleagues/students to attend this conference. For more information about the conference and the requirements for the extended abstract, please visit the conference website: <http://ismf2016.xjtu.edu.cn>.

Visa application is advised to be done as soon as possible and not later than 1.5 months in advance of the conference. If you have any question about the visa application, please contact our secretariat via email: ismf@mail.xjtu.edu.cn.

We are looking forward to seeing you at the conference in Chengdu.

Sincerely yours,

Bofeng Bai

Professor

State Key Laboratory of Multiphase Flow in Power Engineering

Xi'an Jiaotong University

Xi'an 710049, China
