7th International Symposium on Spouted Beds (ISSB-7) - A WCCE10 Joint Event

The 7th International Symposium on Spouted Beds (ISSB-7) will uphold the tradition of this series of conferences by focusing on fundamental research on spouted beds, but it will significantly expand into emerging applications of spouted bed and novel spouted bed technologies, especially those related to new processes for the production of eco-friendly chemicals, pharmaceuticals, and renewable and sustainable energy.

The aim of the Congress is to share the most recent advances on spouted bed technology, with its broad outlook ranging from fundamental research through to the technology's cutting-edge industrial application. This symposium is a unique opportunity for convening the world's foremost experts on spouted beds.

7th International Symposium on Spouted Beds (ISSB-7) A WCCE10 Joint Event A WCCE10 Joint Event

■ Topics

This Symposium will cover the following areas:

- Spouted bed fundamentals
- Non-conventional spouted bed fundamentals
- Modelling and simulation of spouted beds
- Applications of spouted beds I: Chemical reactor
- Applications of spouted beds II: Physical processes

■ Abstract Submission

Abstracts should be submitted using the “**Online Submission**” section of the **wcce10 website** from **October 2016** onwards

VERY IMPORTANT NOTE:

Please take note that it is **absolutely necessary** to **pre-register** in order to **obtain the “password” and “user”** before you submit your abstract.

Please **be sure to preregister in the wcce10 congress website** before you submit your abstract online **in the registration and abstracts sections**; <http://wcce10.org>
